

## Academic Year 2024

Tokyo City University

### Graduate School of Environmental and Information Studies

<b>Environmental and Information Studies</b>	> Doctoral Program > Master's Program	<b>Yokohama Campus</b>
<b>Urban Life Studies</b>	> Doctoral Program > Master's Program	<b>Setagaya Campus</b>

## Admission Guidelines

Examination types	Round B	Round C
Application period	Wednesday, July 12 to Tuesday, July 18, 2023	Friday, January 12 to Thursday January 18, 2024
Screening (examination) dates	Wednesday, August 30	Wednesday, February 14
Notification of result	10:00 a.m., Friday, September 8	10:00 a.m., Friday, March 1
Enrollment deadline	Must be postmarked by Friday, October 6	Must be postmarked by Friday, March 8

※For the General Selection (English), the General Selection (Japanese), and the Selection for Working People, some applicants will be screened for eligibility. Please refer to p.14 for more details (e.g. whether you need to take the examination or not).

※International students living abroad may take the examination online.

※If the University judges that it is difficult to hold the examination on campus, it may give separate instructions to hold the examination via the Internet. In the event that the University determines that it is difficult to conduct the examination on campus, the University may instruct you to take the examination via the Internet.

An internet connection, computer, webcam, earphones, microphone, etc. that allows you to send and receive video and audio.  
A quiet environment that does not interfere with the interview.

## Purposes of human resource development and our educational and research activities

### Graduate School of Environmental and Information Studies

Quoted from Article 3, School Regulations of the Graduate School of Tokyo City University—

#### Purposes of human resource development and our educational and research activities

##### Graduate School of Environmental and Information Studies

Through advanced education related to the environment, information, and urban life, and through the practice of research that responds to social needs, the department aims to nurture human resources who can create new values and a rich society by cultivating analytical ability and insight in the natural, mathematical, and social sciences to accurately identify and solve problems in an increasingly complex world and region, and by conducting multifaceted research in cooperation with diverse stakeholders.

8 billion total population, \$97 trillion global GDP, 63% global Internet usage, 3.7 billion tons of annual primary energy consumption (oil equivalent), 33.5 billion tons of annual CO<sub>2</sub> emissions, 4.5 billion urban dwellers...In 2015, the United Nations took the lead in establishing sustainable development goals. The global goals aim to combat various issues of climate change, water, ecosystem, urban cities and infrastructures. To resolve a broad variety of global issues, human beings need to make excellent use of artificial intelligence, IoT, big data, and other cutting-edge information processing technologies to bring dramatic progress to eco-innovation, such as biomass and renewal energy, and realize smart cities and ecotowns promptly. Although the government, local governments, corporations, NPOs, NGOs, consumer organizations and various organizations are required to promote these efforts, there is a critical deficiency in human resources who can lead these organizations.

The mission of the Graduate School of Environmental and Information Studies is to deepen basic research and applied research related to the environment, information, and urban life, which are new and crucial research domains for the 21<sup>st</sup> century. Concurrently, it strives to realize sustainable society by implementing research findings in society. The school offers a curriculum that places emphasis on developing the ability to see things from a higher perspective and see through the true nature of problems, as well as the power of executing research backed up by specialized knowledge and skills and communication skills to share the research findings with the international community. The school has 47 personnel who are active in each field of the environment, information, and urban life to provide highly concentrated research guidance, which is close to a one-to-one basis. Students also receive internships and research projects through cooperation with corporations and local governments. The intermediate presentations along with English presentations held regularly along with research presentations at international conferences held overseas will be valuable experiences and assets in the future for students studying in the graduate school.

The graduates of the Graduate School of Environmental and Information Studies work in various research institutions, consulting firms, information industries, and local governments while playing an active part as experts to resolve global environmental and social issues. Their achievements prove the high quality of the curriculums taught in the graduate school. Through the school's curriculum, students will deepen their expertise (warp) to understand a broad range of domains in a cross-sectoral manner (woof). By improving their well-rounded comprehensive skills with proportioned warp and woof, students are expected to develop to become human resources who can contribute to the realization of a sustainable society important for our Earth and its people.

## Admission policy

The Graduate School of Tokyo City University aims to develop human resources to bring about sustainable social development, and has established graduate schools corresponding to specialized fields of academic research to achieve this goal. Each graduate school seeks individuals with the following abilities, motivation, and goals based on the "Objectives for Human Resource Development and Education/Research" set forth by each graduate school.

### **【Master's Program】**

In today's society, sustainable social development is required, taking into consideration the three elements of economy, society, and environment. To achieve this, it is necessary to have human resources who can solve various social problems in a cross-sectoral and multidisciplinary manner based on solid professional skills. Therefore, we ask prospective students to be able to share the following items.

1. Empathy with the university's educational philosophy and objectives
2. Multi-faceted and composite perspectives and logical thinking based on these perspectives
3. Strong interest in unknown problems and a challenging spirit to solve them
4. Communication skills necessary for professional competence
5. Ethical values to have as a human being

### **【Doctoral Program】**

In today's society, sustainable social development is required, taking into consideration the three elements of economy, society, and environment. To achieve this, it is necessary to have advanced research skills to solve various problems, and to acquire the ability to explore new issues and new fields of study. For this reason, we seek students who can share the following points.

1. Awareness of the various problems facing modern society and a desire to contribute to the development of society
2. Ability to develop their own capacity to address unresolved issues
3. Ability to solve various problems from a global perspective in cooperation with various stakeholders
4. Execution skills needed to fulfill leadership roles
5. Possess appropriate ethical and behavioral characteristics required for research activities.

# Graduate School of Environmental and Information Studies

## Admission Policy

<b>Master's Program</b>	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Master's Program is to develop human resources who have critical awareness to find out specific issues in the field of environment, information or urban life and are willing to struggle to solve these issues. For this purpose, we are inviting students who can share with us the following points of view.</p> <p>[Invited Personality]</p> <ol style="list-style-type: none"> <li>1. Having sympathy with our philosophy of education</li> <li>2. Critical thinking about modern society</li> <li>3. International, future oriented and interdisciplinary points of view</li> <li>4. Practical mind for solving problems</li> <li>5. Communication ability with others</li> <li>6. Morality and ethical mind as a scientist</li> </ol>
<b>Doctoral Program</b>	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Doctoral Program is to develop human resources who have profound insight and ambition to explore new academic areas in relation to environment, information or urban life from interdisciplinary broad perspective, and advanced research and teaching ability</p> <p>[Invited Personality]</p> <p>We invites students who have critical mind to the issues and problems on modern human society, research mind to seek practical resolutions in order to maintain sustainable society, and ambitious mind for exploring brand new academic field.</p>

## Curriculum Policy

<b>Master's Program</b>	<p>[Required Subjects]</p> <p>Students should take required subjects in order to complete master thesis under guidance and instruction by teachers of belonging laboratory.</p> <p>[Specialized Studies]</p> <p>Students should take subscribed number of "basic specialized subject" in order to acquire interdisciplinary broad knowledge, and also should take subscribed number of "specialized subject" in order to understand more specialized knowledge of each study field</p> <p>[General Common Subjects]</p> <p>Student should take some general common subjects in order to be a human resource with practical capability for success in the international society, and are required to make presentations including by English on your research.</p>
<b>Doctoral Program</b>	<p>[Advanced Skills for Professionals]</p> <p>In order to be a professional researcher as well as a teacher and an academic member of the society, students are required to acquire various advanced skills in the circumstance of easily taking advices from any teachers in the graduate school.</p> <p>[Research for Doctoral Dissertation]</p> <p>Students are promoting and making progress of their doctoral research under consultation, guidance or instruction by professor and other teachers of their laboratory. .Presentations of each semester are required.</p>

## Diploma Policy

<b>Master's Program</b>	<p>[Specialized Knowledge and Applicable Skills]</p> <p>Acquired the abilities of profound consideration with specialized knowledge for seeking practical resolutions on specific issues in the field of environment, information or urban life.</p> <p>[Abilities for Analysis and Planning]</p> <p>Acquired the abilities to find practical resolutions through scientific way of thinking, survey, investigation and analysis.</p> <p>[Communication Ability and Sense of Responsibility]</p> <p>Having potentialities for making more progress on research and practices with communication ability and sense of responsibility in order to contribute to international society</p> <p>[Research Ethics]</p> <p>Having morality and ethical mind as a scientific researcher.</p>
<b>Doctoral Program</b>	<p>[Advanced Capability for Scientific Research]</p> <p>Acquired the advanced and profound research capabilities in terms of to accomplish a specific research project, to integrate a consistent output, to apply to practical resolutions as well as to make contribution by accumulation of wisdom to the society.</p> <p>[Interdisciplinary Perspective]</p> <p>Acquired interdisciplinary broad capabilities in terms of to contribute to create brand new value through finding various issues with bird eye's view and connecting them with advanced knowledge on environment, information or urban life.</p> <p>[Research Ethics]</p> <p>Having morality and ethical mind as a scientific researcher.</p>

# Environmental and Information Studies

## Admission Policy

<b>Master's Program</b>	<p>[Invited Personality]</p> <p>The Master's Program of Environmental and Information division seeks students with the following skills who are interested in the four fields such as "Environmental Management", "Communication Environment", "Information System", and "Regional/Urban Environment".</p> <ol style="list-style-type: none"> <li>1. Basic knowledge at the level of graduation with a bachelor's degree that is required of a researcher to undertake studies in the chosen field (However, it is not necessarily required to have taken environmental-and information-related classes.)</li> <li>2. Language skills to participate in lectures and conduct research on a global scale</li> <li>3. Specific awareness of environmental- and information-related issues and the skill to explain the issues to others</li> </ol> <p>In order to recruit such students, we conduct entrance examinations such as the written test and interview in the general screening (Japanese and English). In the case of the adult screening (2 years or more of work experience is required) and the general screening (English), we consult with the applicants about the language used in their education before preparing the application documents.</p>
<b>Doctoral Program</b>	<p>[Invited Personality]</p> <p>The Doctoral Program of Environmental and Information division seeks students who have strong interest in either environmental field or information field with the following capabilities</p> <ol style="list-style-type: none"> <li>1. Specialized knowledge at the level of graduation with a master's degree that is required to research on one of the selected academic field from "Environmental Management", "Communication Environment", "Information System", and "Regional/Urban Environment".</li> <li>2. Language skills to participate in lectures and conduct research on a global scale</li> <li>3. Specific awareness of environmental- and information-related issues and the skill to explain the issues to others.</li> </ol> <p>In order to recruit such students, we conduct entrance examinations such as the written test and interview in the general screening (Japanese and English). In the case of the adult screening (2 years or more of work experience is required) and the general screening (English), we consult with the applicants about the language used in their education before preparing the application documents.</p>

## Curriculum Policy

<b>Master's Program</b>	<p>[Required Subjects]</p> <p>Students should take required subjects in relation to complete master thesis under guidance and instruction by teachers of belonging laboratory. Throughout these research process, students enhance their required capabilities on scientific way of thinking, survey, investigation and analysis in terms of solving problems on environmental or information issues.</p> <p>[Specialized Studies]</p> <p>Students should take subscribed number of "Basic Specialized Subject" in order to obtain interdisciplinary broad knowledge, and also take subscribed number of "Specialized Subject" in order to understand more specialized knowledge of each study field</p> <p>[General Common Subjects]</p> <p>Student should take some General Common Subjects in order to be a human resource who has practical capability for success in the international society, and are required to make presentations on your research.</p>
<b>Doctoral Program</b>	<p>[Advanced Research and Teaching Skills]</p> <p>In order to be a professional researcher as well as teacher and academic member of the society, students should acquire various advanced skills in the circumstance of easily taking advices from any teachers in the whole graduate school.</p> <p>[Making Progress on Academic Wisdom]</p> <p>In the academic field of environmental or information studies, students promote and carry out their doctoral research with advanced methodologies of investigation or analysis, integrate these findings, and complete a consistent doctoral dissertation. Throughout these process, each student are expected to be an independent professional researcher who has international and interdisciplinary perspective.</p>

## Diploma Policy

<b>Master's Program</b>	<p>[Specialized Knowledge and Applicable Skills]</p> <p>Acquired the abilities of profound consideration with specialized knowledge for seeking practical resolutions on specific issues in the field of environmental or information studies.</p> <p>[Analytical Capacity and Imagination Ability]</p> <p>Acquired the abilities to find practical solutions through scientific way of thinking, survey, investigation and analysis in terms of modern issues of environmental or information studies</p> <p>[Communication Ability and Sense of Responsibility]</p> <p>Having potentialities for making more progress in research and practices with excellent communication ability and sense of responsibility in order to contribute for international society</p> <p>[Research Ethics]</p> <p>Having morality and ethical mind as a scientific researcher.</p>
<b>Doctoral Program</b>	<p>[Advanced Capability for Scientific Research]</p> <p>Acquired the advanced and profound research capability in terms of to accomplish a specific research issue in the academic field of environmental or information studies in order to find practical resolutions and to contribute for accumulation of wisdom.</p> <p>[Interdisciplinary Perspective]</p> <p>Acquired interdisciplinary capabilities in terms of to contribute to create brand new value by finding different issues with bird eye's view and connecting them with advanced knowledge and technologies on environmental or information study fields.</p> <p>[Research Ethics]</p> <p>Having morality and ethical mind as a scientific researcher.</p>

## Urban Life Studies

### Admission Policy

<b>Master's Program</b>	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Master Program of Urban Life Studies division is to develop human resources who have ability to find out specific issues that deserve to research, who have ability to investigate them with specialized knowledge and analytical knowhow, and who have ability to propose a practical and creative solution that leads to "quality of modern urban life".</p> <p>[Invited Personality]</p> <ol style="list-style-type: none"> <li>1. Having interest on urban issues, and willing to contribute to the society thorough research or projects in terms of creating "quality of modern urban life".</li> <li>2. Basic knowledge at the level of graduation with a bachelor's degree, ability of logical thinking, motivation for new discover, inventive ideas or creative works.</li> <li>3. Japanese language skills to participate in lectures.</li> <li>4. Having communication ability with Japanese language</li> <li>5. Having morality and ethical mind as a researcher</li> </ol>
<b>Doctoral Program</b>	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Doctoral Program of Urban Life Studies division is to develop human resources who have profound insight on urban issues, ambition to explore brand new areas in order to create "quality of modern urban life", interdisciplinary bread perspective, and with advanced capability for research and teaching.</p> <p>[Invited Personality]</p> <ol style="list-style-type: none"> <li>1. Having interest on urban issues, and willing to contribute to the society thorough distinguished research or projects in terms of creating "quality of modern urban life".</li> <li>2. Knowledge and capabilities for research work at the level of graduation with a master's degree, interdisciplinary perspective, ambition to explore brand new areas of academic field.</li> <li>3. Language skills to participate in lectures and conduct research on a global scale</li> <li>4. Having communication ability with Japanese language</li> <li>5. Having morality and ethical mind as a researcher.</li> </ol>

## Curriculum Policy

<b>Master's Program</b>	<p>[Required Subjects]</p> <p>Students should take required subjects in relation to complete master thesis under guidance and instruction by teachers of belonging laboratory. Throughout these research process, students enhance their required capabilities on scientific way of thinking, survey, investigation and analysis in terms of solving problems of modern urban society or creating attractive modern urban life.</p> <p>[Specialized Studies]</p> <p>Students should take subscribed number of "Basic Specialized Subjects" in order to obtain interdisciplinary broad knowledge, and also take subscribed number of "Specialized Subjects" which correspond to four major field of urban life studies, i.e. Urban Lifestyle, Urban Design, Urban Social System and Project Management, in order to understand more specialized knowledge of each study field</p> <p>[General Common Subjects]</p> <p>Student should take some General Common Subjects in order to be a human resource who has practical capability for success in the international society, and are required to make presentations on your research.</p>
<b>Doctoral Program</b>	<p>[Advanced Research and Teaching Skills]</p> <p>In order to be a professional researcher as well as teacher and academic member of the society, students should acquire various advanced skills in the circumstance of easily taking advices from any teachers in the whole graduate school.</p> <p>[Making Progress on Academic Wisdom]</p> <p>In the academic field of urban life studies, students promote and carry out their doctoral research with advanced methodologies of investigation or analysis, integrate these findings and complete a consistent doctoral dissertation. Throughout these process, each student are expected to be an independent professional researcher who has international and interdisciplinary perspective, or a creative professional who has distinguished imaginative ability.</p>

## Diploma Policy

<b>Master's Program</b>	<p>[Specialized Knowledge and Applicable Skills]</p> <p>Acquired the abilities of profound consideration with specialized knowledge for seeking practical solutions on specific issues in the field of such as urban lifestyle, urban design, urban social system, project management or other various issues relates to modern urban society.</p> <p>[Analytical Capacity and Imagination Ability]</p> <p>Acquired the abilities to find practical resolutions through scientific way of thinking, survey, investigation and analysis in terms of urban lifestyle, urban design, urban social system, project management or other various modern urban issues</p> <p>[Communication Ability and Sense of Responsibility]</p> <p>Having potentialities for making more progress in research and practices with excellent communication ability and sense of responsibility in order to contribute for international society</p> <p>[Research Ethics]</p> <p>Having morality and ethical mind as a scientific researcher.</p>
<b>Doctoral Program</b>	<p>[Advanced Capability for Scientific Research]</p> <p>Acquired the advanced and profound research capability in terms of to accomplish a specific research issue in the academic field of urban and urban life issues in order to find practical resolutions and to contribute for accumulation of wisdom.</p> <p>[Interdisciplinary Perspective]</p> <p>Acquired interdisciplinary capabilities in terms of to contribute to create brand new value by finding various kinds of issues with bird eye's view and connecting them with advanced knowledge on urban life, urban design or issues relates to modern urban society.</p> <p>[Research Ethics]</p> <p>Having morality and ethical mind as a scientific researcher.</p>

## Purposes of human resource development and our educational and research activities

### Graduate School of Environmental and Information Studies

Quoted from Article 3, School Regulations of the Graduate School of Tokyo City University—

#### Purposes of human resource development and our educational and research activities

The Graduate School of Environmental and Information Studies aims to develop human resources who explore science, technologies and human nature in relation to the Environment, Information and Urban Life areas, as well as to develop human resources who contribute to the society with research, education and practice using expertise of these specialized areas.

## 1. Master's Program

Course	Domain	Outline of Research and Education
Environmental and Information Studies	Environmental Management	Research and education in relation to policies for solving environmental problems of global scale, environmental friendly style of production and consumption including ecological system, sustainable management for business and society, and practices and evaluation for those implementation
	Communication Environment	Research and education on communication of modern society such as mass media and online network, methodologies and design for better way of decision making and consensus building, from the perspective of social science including sociology, psychology and cognitive science.
	Information System	Research and education on safe, secured and comfortable information systems which designed on the basis of various requirements and positions of users, from engineering points of view.
	Regional/Urban Environment	Research and education about buildings, cities, regions and natural environments in terms of preservation and restoration of ecological systems, focusing on harmonization and regeneration with human society, from ecology, built environment, landscaping and urban engineering points of view.
Urban Life Studies	Urban Life Studies	Research and education in relation to "Quality of Urban Life" in modern urban society, with both methodologies of social science and spatial design, including both business management and aesthetic points of view, intending to develop practical and creative human resources

## 2. Doctoral Program

The Doctoral Program of the Graduate School consists of three domains such as "Environmental", "Information" and "Urban Life Studies". The doctoral Program aims to develop human resources who could explore new frontiers of advanced interdisciplinary academism, as a professional researcher, educator or leader of society in each field of environmental science, information science and urban life studies.

# Outline of the Establishment

## Graduate School of Environmental and Information Studies

Graduate School of Environmental and Information Studies	Master's Program		Doctoral Program		Campus *
	Admission quota	Capacity	Admission quota	Capacity

# Quota and Examination Types

## 1. Quota

Graduate School	Major	Master's Program	Doctoral Program
Environmental and Information Studies	Environmental and Information Studies	62	6
	Urban Life Studies	18	6

\*The quota includes the candidates of the examination for recommended candidates (Round A) and general examination (Round B and C).

## 2. The Outline of Entrance Examinations

Schedule name	Round B	Round C
Special Screening for the overseas partner Institutions	Candidates who received the recommendations from both of the following are selected based on the overall performance of the screening of application documents and interview examination. ・ The president of the university or graduate school to which the applicant belongs. ・ The chief professor of the department to which the applicant belongs. <u>Master's Program</u> (1) Document screening (2) Interview examination <u>Doctoral Program</u> (1) Document screening (2) Interview examination	
General screening (Japanese) (English)	Candidates are selected based on the performance of an academic assessment, interview, and the screening of application documents. <u>Master's Program</u> (1) Specialized examination for each domain (2) Interview(General screening(Japanese) including oral examination in English) (3)Document screening <u>Doctoral Program</u> (1) Document screening (2) Interview examination (including an oral examination.)  General screening (English) ▪ In principle, international students (students who can take classes in English) are eligible.	
Screening for working adults	Candidates with sufficient work experience related to the specialized area they are applying to major in (a minimum of two years) at the time of the application are selected based on the overall performance of the screening of application documents and interview, including an oral examination. Note that this selection is conducted in Japanese. <u>Master's Program</u> (1) Document screening (2) Interview (including an oral examination.)※English proficiency will also be checked. <u>Doctoral Program</u> (1) Document screening (2) Interview (including an oral examination.) ※English proficiency will also be checked.	
Special screening for International students	Foreign students from overseas educational institutions other than those with overseas agreements who have a special background in their field of study are selected through a comprehensive interview including examination and oral examination of application documents. <u>Master's Program</u> (1) Document screening (2) Interview (including an oral examination.)  <b>Inquire at least 30 days prior to the application start date, and after preliminary screening and determination of applicability by the department, applications will be accepted if determined to be eligible.</b>	
Application period	Wednesday, July 12 to Tuesday, July 18,2023	Friday, January 12 to Thursday January 18, 2024
Examination dates	Wednesday, August 30	Wednesday, February 14
Notification of result	10:00 a.m., Friday, September 8	10:00 a.m., Friday, March 1
Enrollment deadline	Must be postmarked by Friday, October 6	Must be postmarked by Friday, March 8
Examination center	Please note that examination centers vary by courses. *Check the map of each campus on page 7.	
	Course	Location
	Environmental and Information Studies	Yokohama Campus
	Urban Life Studies	Setagaya Campus

※International students residing abroad are allowed to take the examination online from abroad.

※If the university judges that it is difficult to administer the test on campus, it may give separate instructions to administer the test via the Web.

If the university judges that it is difficult to conduct the examination on campus, it may give separate instructions and conduct the examination via the Web. In preparation for such instructions, please prepare an environment in which the following two things can be done in advance.

Internet environment with video and audio transmission, computer, webcam, earphones, microphone, etc.  
A quiet environment that does not interfere with the written test and interview

# Qualification Screening

## 1. Confirmation of application approval

\*Refer to the "Domains and Instructors" provided on a separate list.

### Common Items for Master's Program / Doctoral Program

Applicants are required to consult with their research instructor in the area of their choice before submitting an application, and to obtain the instructor's approval of the application by email or other means in advance.

If you wish to use an assistant research instructor (marked with an asterisk) as your instructor, you must obtain the approval of a research instructor (unmarked) in the same field at the time of application. If you wish to apply for the position of assistant research instructor, you must have the approval of a research instructor in the same field (unmarked).

If your research advisor is marked with △ sign or ◇ sign, you must obtain the approval of the instructor who will continue to supervise you at the time of application.

### Doctoral Program

In addition to the seal of the supervising Instructor, a faculty member in the same field of study listed in the "Fields of Study and Supervising Instructors" section of this guideline must also be present.

In addition to the supervising Instructor's seal, a faculty member in the same field of study listed in the "Field of Study and Faculty Advisors" section of this guideline (p. 8) must be designated as a secondary advisor in advance. You must also obtain the approval of your secondary advisor. You will also need the approval of your advisor.

## 2. Qualification Screening

Applicants who meet any of the following criteria will be screened for admission

### ◆ Screening of the qualification for enrollment

Master's Program	Doctoral Program
the eligibility categories (6) or (9) for general screening (Japanese)	the eligibility categories (7) for general screening (Japanese)
the eligibility categories (6) or (9) for general screening (English)	the eligibility categories (7) for general screening (English)
the eligibility categories (6) or (9) for screening for working adults	the eligibility categories (7) for screening for working adults

The documents to be submitted are the same as those for the application.

The submission period to be submitted is the same as the application period.

	Round B	Round C
Application period	Wednesday, July 12 to Tuesday, July 18, 2023	Friday, January 12 to Thursday January 18, 2024

### 【Note】

After the application is submitted, the applicant will be screened for eligibility for admission. If the result of the screening is "not acceptable," the application fee may be refunded

## 3. Application Fee

JPY 35,000 — Please pay the application fee using the application fee payment system.

<http://www.guide.52school.com/guidance/pay-tcu-g/>

Note 1: To pay for the application fee, access the website on the right (<http://www.guide.52school.com/guidance/pay-tcu-g/>). Upon registration, visit your nearest convenience store (7-Eleven, Lawson, FamilyMart, and Ministop) or Pay-Easy (ATMs of Japan Post Bank and banks in Japan with a Pay-Easy sign). You may also pay with a credit card. An additional payment fee of JPY 990 will be required at the time of the payment of the application fee.

\*The application fee cannot be paid via the teller at bank institutions.

\*Please note that the application fee, once paid, shall not be refunded under any circumstances.

\*If the applicant's family member or acquaintance completes the application procedures on behalf of the applicant, the application documents must include information about the applicant.

## Application procedures

### (examination fee and application documents (recommendation test))

#### 4. List of application documents

Applicants must submit the documents marked with ● in the space provided under "Intended for" in the following table. Please be careful because the documents may differ depending on the programs and examination types.

#### 【Special Screening for the overseas partner institutions】

	Intended for		Prescribed Forms	Application Documents	Notes
	Master's Program	Doctoral Program			
1	●	●	Form A	Application Form	Specify the name of the course applying for and get the permission for application from the academic instructor by e-mail.
	●	●	—	Permission e-mail	Enclose a copy of the e-mail by which the permission for application is got from the academic instructor.
2	●	●	Form B	Application Fee	JPY 35,000 Please pay the application fee using the application fee payment system, and affix a receipt in the prescribed section on the Form B.
	●	●		Secondary Form (Photograph Ticket)	Affix a photograph taken within three months of submission of the application. The photograph must be taken from the waist up, directly facing the camera, and bareheaded. (width x height = 3 x 4 cm). Affix the photograph in the prescribed section of Form B.
3	●	●	Form C	Statement of purpose and research plan	Please discuss with an instructor of the domain you are applying for before preparation.
4	●	●	—	Transcripts	Applicants for the Master's Program Applicant's transcripts from the last school graduated (or the applicant is currently attending.) Applicants for the Doctoral Program Applicant's transcripts from the last graduate school graduated (or the applicant is currently attending.)
5	●	●	—	Graduation Certificate or Certificate of Expected Graduation	Applicants for the Master's Program Submit a graduation certificate (graduation and degree certificate) or a certificate of expected graduation obtained from undergraduate studies of a university. Applicants for the Doctoral Program Submit a completion certificate for a graduate school or Master's Program, or a certificate of expected graduation. <For international students, refer to "Notes for international students" in the next section.>
6	●	●	Form E	Letter of Recommendation	When the applicants wish to apply under Special Screening for the overseas partner Institutions submit the recommendation letter jointly named by • The president of the university or graduate school to which the applicant belongs. • The chief professor of the department to which the applicant belongs.
7	●	●	Form H	Applicant Survey Form	
8	●	●	—	Passport (copy), Alien Registration Card or Residence Card	Applicants must attach copies of the relevant pages (pages showing their name, photograph, signature, etc.) of their passport or copies of both sides of their residence card to confirm their nationality, resident status, etc.

# Application Documents (General Screening)

Applicants must submit the documents marked with ● in the space provided under “Intended for” in the following table. Please be careful because the documents may differ depending on the programs and examination types.

	Intended for		Prescribed Forms	Application Documents	Notes
	Master's Program	Doctoral Program			
1	●	●	Form A	Application Form	Specify the name of the course applying for and get the permission for application from the academic instructor by e-mail.
	●	●	—	Permission e-mail	Enclose a copy of the e-mail by which the permission for application is got from the academic instructor.
2	●	●	Form B	Application Fee	JPY 35,000 Please pay the application fee using the application fee payment system, and affix a receipt in the prescribed section on the Form B.
3	●	●		Secondary Form (Photograph Ticket)	Affix a photograph taken within three months of submission of the application. The photograph must be taken from the waist up, directly facing the camera, and bareheaded. (width x height = 3 x 4 cm). Affix the photograph in the prescribed section of Form B.
4	●	●	Form C	Statement of purpose and research plan	Please discuss with an instructor of the domain you are applying for before preparation.
5	●	●	—	Transcripts	<u>Applicants for the Master's Program</u> Applicant's transcripts from the last school graduated (or the applicant is currently attending.) <u>Applicants for the Doctoral Program</u> Applicant's transcripts from the last graduate school graduated (or the applicant is currently attending.) <For international students, refer to “Notes for international students” in the next section.>
6	● General Selection (Japanese) Applicants Only See Notes (p.18)	—	—	TOEIC Official Certification (Online test Not available)	If you would like to be exempted from the oral English examination conducted in during the interview, please submit it. (cannot copy) For reference points, please contact the Education Support Center before applying. Only scores after April 1 of the year before the entrance examination are valid.
7	●	●	—	Graduation Certificate or Certificate of Expected Graduation	Applicants for the Master's Program Submit a graduation certificate (graduation and degree certificate) or a certificate of expected graduation obtained from undergraduate studies of a university. Applicants for the Doctoral Program Submit a completion certificate for a graduate school or Master's Program, or a certificate of expected graduation. <For international students, refer to “Notes for international students” in the next section.>
8	● Intended for the applicants of the [Screening for working adults]	● Intended for the applicants of the [Screening for working adults]	Form D	Curriculum Vitae	Submit either a Form D (filled out by the applicant) or a Form E (filled out by a person acquainted with the applicant.) In addition, other types of forms are also accepted if the forms include all items on the prescribed forms. <small>* Applicants applying under screening for working adults who wish to apply for the tuition reduction and exemption system must check the box for “Yes.”</small>
9	● Intended for the applicants of the [Screening for working adults]	● Intended for the applicants of the [Screening for working adults]	Form E	Letter of Recommendation	
10	—	●	Form F	The Summary of Research in the Doctoral Program (First Semester), Etc.	
11	● Intended for international students	● Intended for international students	Form H	Applicant Survey Form	
12	● Intended for international students	● Intended for international students	—	Passport (copy), Alien Registration Card or Residence Card	Applicants must attach copies of the relevant pages (pages showing their name, photograph, signature, etc.) of their passport or copies of both sides of their residence card to confirm their nationality, resident status, etc.
13	●	●	Form I	Address stickers for an examination ticket	Clearly state the address for sending an examination ticket, acceptance letter, and other documents related to admission.
14	● Intended for Applicants for Special Selection of Foreign Students	—	Form J	Application Form for Special screening for International Students	In principle, when applying for the special selection for international students, please make arrangements so that you can submit the application at the time of application to the instructor of your desired major 30 days prior to the application.

## Application documents (Points to note for International students)

### 5. To be exempted from the English oral examination by TOEIC examination

### Master's Degree Program (General Selection (Japanese)) only

Those who have a TOEIC test score higher than the standard set by our graduate school [Open test or IP test (special group examination system) is acceptable.] may be exempted from taking the English subject test. For the reference point, please contact the Education Support Center before you apply. However, only scores after April 1 of the year before the entrance examination are valid.

If the exemption is not approved due to defects in documents, etc., we will contact you separately by the time the examination form is sent.

#### public test

It refers to the examination conducted by the International Business Communication Association 10 times a year (1, 3, 4, 5, 6, 7, 9, 10, 11, December) in 80 cities across Japan. You can apply online or at a convenience store.

#### IP Test Institutional Program (IP)

Organizers are organizations (companies, schools, etc.) with corporate status that conduct examinations for their employees (limited to a group of 10 or more employees). Also, the validity of the test results is usually determined to be equivalent to the published tests.

At our university, it is held several times a year at each campus. Details such as implementation and application methods will be posted separately, so please check them individually. \* Please note that the score table for the online exam will not be accepted.

### 6. List of application documents

### Notes for international students

Application documents: 5	Transcripts
Application documents: 7	Graduation Certificate/Certificate of Expected Graduation

The following items are intended for applicants who have graduated (completed) universities in Japan or are expected to graduate (complete.)

The following information is intended for applicants who have graduated (completed) or will graduate (have completed) from a university outside Japan.

1. Please be sure to submit your transcripts and graduation (completion) certificate issued by your last school in your country. If you receive a certificate, be sure to submit the one with the official seal of the school. (If the certificate contains multiple pages, all pages need to have the official seal.)
2. Please submit the original transcript or a certified true copy (a copy certified as a true copy of the original by the school from which you graduated, the embassy, or other public institution) of your transcript and graduation certificate.
3. If the document is written in a language other than Japanese or English, please provide a Japanese or English translation. The translation must be certified by an official organization such as an embassy that it is consistent with the meaning of the original.
4. In addition to the Certificate of Graduation, please submit a copy of the Diploma if possible.
5. If the name, date of birth, etc. on the certificate differs from that on the passport, please obtain proof of identity from the embassy or other public institution.
6. **The certificate must be issued within three months prior to the date of application.** However, this does not apply if only one original copy is available, so please enclose a note explaining the circumstances.
7. Those who do not have a status of residence in Japan will need to apply for a new visa, which may delay their entry into Japan.

**In addition to the above, for graduates of universities in the People's Republic of China**

Applicants for the Master's Program: Please submit 1 to 4 (for undergraduate courses)

Applicants for the Doctoral Course: Please submit 1 to 6 (for the undergraduate course and the Master's Course)

Master's & Doctoral	1	<b>Original or certified true copy of the certificate of graduation (completion)</b> Must be issued by the university from which you graduated and have an 18-digit number on it.
	2	<b>Verification Report of China Higher Education Qualification Certificate</b> It must be issued by CHSI (China Higher-education Information and Student Information) and written in English. If you wish to submit the Online Verification Report of China Higher Education Qualification Certificate, please read the following instructions carefully.
	3	<b>Original or certified true copy of Transcript of Results</b> A document issued by the university from which you graduated. If you have transferred to another institution, please submit the results of the institution from which you transferred.
	4	<b>Verification Report of China Higher Education Student's Academic Transcript</b> It must be issued by CHSI (China Higher Education Student Information Network) and written in English. If you wish to submit the Online Verification Report of China Higher Education Student's Academic Transcript, please read the following instructions carefully.
Doctoral	5	<b>Original or certified true copy of the Certificate of Degree</b> Must be issued by the university from which you completed and contain a 16-digit number.
	6	<b>Verification Report of Higher Education Degree Certificate</b> It must be issued by CHSI (China Higher Education Student Information Network) and written in English. If you wish to submit the Online Verification Report of Higher Education Degree Certificate, please read the following instructions carefully.

Please note that it may take up to 5 weeks to receive the "Verification Report of China Higher Education Qualification Certificate", "Verification Report of China Higher Education Student's Academic Transcript", and "Credentials Report". If the above documents are not submitted within the application period, your application may not be accepted.

■ About the Verification Report of China Higher Education Qualification Certificate, Verification Report of China Higher Education Student's Academic Transcript, Verification Report of Higher Education Degree Certificate

It is handled by CHSI ( <https://www.chsi.com.cn/en/pvr> ).

In Japan, you can apply for issuance at the CHSI Japan Representative Office ( <http://www.chsi.jp> ).

If you wish to submit the certificate in electronic format, please arrange for it to be sent directly from CSSD (Center for Student Services and Development, Ministry of Education, P.R. China) (former title: CHESICC) to our university's Academic Support Center ( [yckyoumu@tcu.ac.jp](mailto:yckyoumu@tcu.ac.jp) ) via e-mail within the application period. E-mails forwarded by applicants will not be accepted as application documents. Please note that applications received after the application period may not be accepted. Please check the details of the procedure by yourself.

## 7. General Test (General Selection (English))

### Department of Environmental Informatics and Department of Urban Life Sciences (Doctoral Course) only

In the Master's Course, classes and research guidance are conducted in English, and in the Doctoral Course, special research and research guidance are conducted in English. In the "Doctoral Program", special research and research guidance are conducted in English. Students can obtain a degree in each program by taking classes, exercises, and special research (only in the Master's Program) in English, as well as special research (only in the Doctoral Program) in each field in English, and thesis writing guidance in each field.

For international students enrolled in the Graduate School of Environmental Informatics, all classes and research guidance will be conducted in English.

After entering the Graduate School, all poster presentations, English research presentations, interim presentations, and master's thesis presentations will be conducted in English.

(1) The timing of classes will be determined through consultation between applicants and course instructors.

(2) In principle, literature research, exercises, and special research in English will be conducted during class hours.

## 9. Examination date, start time, and location

Graduate School	Major	Date and time	Location
Environmental and Information Studies	Environmental and Information Studies	<u>Round B</u> Wednesday, August 30, 2023	Yokohama Campus
	Urban Life Studies	<u>Round C</u> Wednesday, February 14, 2024	Setagaya Campus

Note 1: Please note that examination centers vary by courses. ※Check the map of each campus on page 7.

Note 2: Although the submission of medical examination reports is not required at the time of the submission of the application, please contact the Academic Support Center prior to the submission if special consideration is required for taking the examination or schooling due to physical disabilities.

Note 3: If the University judges that it is difficult to hold the examination on campus, it may give separate instructions to hold the examination via the Internet. In the event that the University determines that it is difficult to conduct the examination on campus, the University may instruct you to take the examination via the Internet.

An internet connection, computer, webcam, earphones, microphone, etc. that allows you to send and receive video and audio.  
A quiet environment that does not interfere with the interview.

## 10. Mailing of Examination Voucher

You will also be notified of your examination number by e-mail.

If you do not receive notification at least one week before the test date, please contact the following Graduate School Entrance Examination, Academic Support Center.

Environmental and Information Studies yckyoumu@tcu.ac.jp  
Urban Life Studies sckyoumu@tcu.ac.jp

# Notification of result and Enrollment Procedure, etc.

## 1. Notification of result and Enrollment Procedure, etc.

Schedule name	Round B	Round C
Notification of result	10:00 a.m., Friday, September 8, 2023	10:00 a.m., Friday, March 1, 2024
Enrollment deadline	Must be postmarked by Friday, October 6	Must be postmarked by Friday, March 8

The identification numbers of successful applicants will be posted on the Yokohama Campus and the Setagaya Campus. The acceptance letter and enrollment procedure documents will be sent to successful applicants by express mail.

## 2. Enrollment procedures

- (1) To enroll in the graduate school, successful applicants will must submit enrollment procedure documents and pay enrollment fees before the prescribed deadline.
- (2) The deadlines for enrollment procedure are shown in the table above. However, because of unavoidable circumstances, the payment deadline of enrollment fees except for the entrance fee shall be extended up to Friday, March 8, 2024.
- (3) The submission of enrollment procedure documents and the payment of enrollment fees must be completed by mail and wire transfer. For details, please refer to the guidelines for enrollment procedure to graduate school, which is included with the letter of acceptance.
- (4) About payment amount (Reference: Payment amount for students for Academic 2023)

(Unit: JPY)

Category Payment amount	Total payment amount for enrollment procedure	For students wishing to pay in installment	
		At the time of Enrollment procedure	Before October 20
Entrance fee	240,000	240,000	—
Tuition	1,100,000	550,000	550,000
Total	1,340,000	790,000	550,000

- ① If you wish to pay your tuition fees in installments, you may do so between the time you apply for admission and October 20 of the following year. Details will be announced at the beginning of the academic year.
- ② Students from Tokyo City University (who are expected to graduate from Tokyo City University in March 2024) can receive an entrance fee of 240,000 yen based on the "Tokyo City University Graduate School Scholarship Regulations". In addition, the tuition fee is also exempted. In addition, tuition fees may also be exempted in accordance with the same regulations.
- ③ Please note that the entrance fee and tuition fee once paid will not be refunded regardless of the reason.
- ④ The above payment is the amount of the enrollment in 2023 and may be changed for the enrollment in 2024.
- ⑤ For privately financed international students (those who have or will obtain the status of residence of "College Student"), we are planning to provide special financial support by offering exemptions. If you wish to apply for the reduction or exemption, please follow the prescribed procedure after enrollment. For the first year, tuition fees for the second semester will be reduced. If you wish to be exempted from paying tuition fees for the first year, please follow the above procedure.
- ⑥ The purpose of this program is to reduce the financial burden on students who have been admitted through the Special Screening for overseas partner institutions and who meet certain conditions. In order to reduce the financial burden on students who have been admitted through the Special Screening for Overseas Partner Schools and to nurture outstanding human resources, tuition fees may be reduced or exempted. If you wish to apply for this exemption, please follow the prescribed procedure after admission.  
If you wish to apply for the reduction, please follow the prescribed procedure after enrollment. For the first year, the tuition fee will be reduced for the second semester. Even if you wish to apply for the reduction, you must pay. If you wish to be exempted from paying the tuition fee, you must still pay the above amount in installments.
- ⑦ The tuition fee reduction system is available for students who are selected from among working adults. Based on the applicant's request, the University may reduce or exempt 50% of the annual tuition fee for the Master's Course and 90% of the annual tuition fee for the Doctoral Course.

### (5) The declination of enrollment

After completion of the enrollment procedures, the school will refund the tuition payment, except for the entrance fee, if students wish to decline enrollment for unavoidable reasons and they submit an enrollment declination request by 12:00 p.m., Saturday, March 30, 2024, in principle. For details, please refer to the guidelines for enrollment procedure to graduate school, which is included with the letter of acceptance.

# Notification of result and Enrollment Procedure,etc

## Courses after enrollment

### Master's Program

To complete the Master's Program of the Graduate School of Environmental and Information Studies, students are required study for a minimum of two years in the graduate school and acquire 30 credits. In addition, they must pass the screening for the doctoral thesis and exam provided by the graduate school after receiving the necessary research guidance.

The breakdown of the number of required credits (30 credits) is shown on the right.

Additionally, the Literature Research/Exercise, and Special Research are taught outside the class hours under the guidance of research instructors.

Literature Research/ Exercise	4 credits
Special Research	6 credits
Subtotal	10 credits
Class subjects	20 credits or more
Total	30 credits or more

### Doctoral Program

To complete the Doctoral Program of the Graduate School of Environmental and Information Studies, students are required study for a minimum of three years in the graduate school and pass the screening for the master's thesis and exam provided by the graduate school after receiving the necessary research guidance. The breakdown of the number of required credits (24 credits) from compulsory subjects (research guidance) is shown on the right.

Lecture and Investigation	8 credits
Research	16 credits
Total	24 credits

### Principal schedule Plan

#### First year in the Master's Program

Mid-April	Deadline for the submission of course registration (first semester/all year)
Mid-July	Graduate School Research Presentation in English
Late September	Deadline for the submission of course registration (second semester)
Early December	Graduate School Research Presentation in English

#### Second year in the Master's Program

Mid-April	Deadline for the submission of course registration (first semester/all year)
Late April	Deadline for the submission of primary theme, etc. for thesis
Early July	Poster presentation
Late September	Intermediate presentation
Late September	Deadline for the submission of course registration (second semester)
Late January	Deadline for the submission of degree request form and thesis, etc.
Mid-February	Master's thesis presentation
Early March	Announcement of certified students for the conferment of degree (master's degree)
Mid-March	Degree conferment ceremony

#### Third year in the Doctoral Program

Mid-July	Graduate School Research Presentation in English
Early December	Graduate School Research Presentation in English

#### Fourth year in the Doctoral Program

Mid-May	Poster presentation
Late September	Intermediate presentation (First session)

#### Fifth year in the Doctoral Program

Late April	Deadline for the submission of primary theme, etc. for thesis
Late June	Intermediate presentation (Second session)
Late November	Deadline for the submission of thesis
December or January	Presentation of doctoral thesis
Late January	Deadline for the submission of degree request form and thesis, etc.
Early March	Announcement of certified students for the conferment of degree (Doctoral degree)
Mid-March	Degree conferment ceremony

## Notification of result and Enrollment Procedure, etc.

- The examination fee for all applicants who will graduate from Tokyo City University (those who are expected to graduate or complete in March 2024) is exempted from the entrance fee.
- For students in the Doctoral Program and Master's Program, the school offers scholarship programs that exempts students from paying tuition for students who demonstrate excellent academics and personalities (see (1) below). For the screening of these scholarship students, only students advanced internally and those who are specially recommended from four universities of science and technology in Tokyo are eligible for the screening. There are also grant-type scholarship programs from (2) to (3) shown in the tables below.
- A representative example of a scholarship loan is the scholarship by the Japan Student Services Organization, which are two types including the interest-free loan (Type One Scholarship) and the interest-bearing loan (Type Two Scholarship.) In addition, there is a program for students using the Type One Scholarship who especially demonstrate excellent academics, which exempts them from repaying their student loans (see (4) below).

### (1) Scholarship for graduate school student (unique to TCU)

Program	School year	Amount of reduction and exemption	Remarks
Doctoral Program	D5	Total amount of tuition or half amount of tuition	Only for students advanced internally and those who are specially recommended from four universities of science and technology in Tokyo.
	D4		
	D3		
Master's Program	M2		
	M1		

### (2) The reduction and exemption of tuition for students who enrolled in the screening for working adults (unique to TCU)

Program	School year	Amount of reduction and exemption	Remarks
Doctoral Program	D5	90% of tuition	Only for students who enrolled in the screening for working adults and wish to receive the reduction and exemption of tuition.
	D4		
	D3		
Master's Program	M2	50% of tuition	
	M1		

### (3) Tuition Reduction and Exemption for Privately Financed International Students (Unique to TCU)

Eligibility	Amount of reduction and exemption	Remarks
Those who meet all of the following requirements (a) Have graduated from an overseas university with which the university has an exchange agreement. (b) Those who have a final GPA of 3.0 or higher at the partner university. (c) Those who are enrolled in the graduate school of the university.	75% of tuition	The university's Tuition Reduction and Exemption Committee for Privately Financed International Students selects the students and the president decides.
Those who meet all of the following requirements (a) Have graduated from an overseas university with which the university has an exchange agreement. (b) Those who have a final GPA of between 2.5 and 3.0 at the partner university. (c) Those who are enrolled in the graduate school of the university.	50% of tuition	
Those who are enrolled in the graduate school of the university.	30% of tuition	

### (4) Other scholarships (Below is some of the grant-type scholarship programs)

Organization name	Monthly/annual amount	Condition
The Moritani Scholarship Foundation	JPY 120,000 (monthly)	Students who are enrolled in universities in Tokyo or reside in Tokyo and recognized as both academically and personally outstanding, and those who have difficulty paying their tuition.
Rotary Yoneyama Memorial Foundation	JPY 140,000 (monthly)	Students who are academically outstanding and have the understanding, attitude and interest in different cultures and possess communication skills, and those who are mentally and physically sound to endure studying abroad.

### (5) Japan Student Services Organization

(This program exempts students who especially demonstrate excellent academics from repaying their student loans)

Program	School year	Acknowledgement	Remarks
Doctoral Program	D5	All or some	If the organization acknowledges that students who receive the Type One Scholarship in graduate school and especially demonstrate excellent academics in school, this program exempts them from repaying their student loans in whole or in part at the end of the loan.
Master's Program	M2		

### Other Scholarships

[https://www.tcu.ac.jp/english/assets/images/admission/graduate/2022\\_scholarships-information\\_en.pdf](https://www.tcu.ac.jp/english/assets/images/admission/graduate/2022_scholarships-information_en.pdf)

(Program Introduction after Admission : Round B only)

If this program is adopted (decision will be made in early December 2023), the following program will be implemented. If this program is adopted and you also meet the requirements for Japanese Government Scholarship (University Recommendation), you will be able to switch your admission from a privately financed student to a Japanese Government Scholarship student.

For details, please contact the Academic Support Center. (yckyoumu@tcu.ac.jp)

Here is the program for your reference.

## **MEXT Scholarship Special Program**

**Global Scale Innovator Program for Sustainable Society (GIPS)**

### **(Introduction of the FY2020 adopted Program)**

The Ministry of Education, Culture, Sports, Science and Technology (MEXT) of Japan offers scholarships to international students who wish to study in graduate program at Japanese universities as Research Students under the Japanese Government (MEXT) Scholarship Program. The new program “Global Scale Innovator Program for Sustainable Society (GIPS)” in the Graduate School of Environmental and Information Studies, Tokyo City University has been selected for one of the priority university in Japan (FY2021-FY2023).

#### **【Name of the program】**

Global Scale Innovator Program for Sustainable Society (GIPS)

#### **【Major】**

Environmental and Information Studies

#### **【Purpose of this program】**

The Global Scale Innovator Program for Sustainable Society (henceforth referred to as “GIPS”) at Graduate School of Environmental and Information Studies, Tokyo City University provides a trans-disciplinary innovator education program based on environmental and information studies. GIPS is new educational program that is offered in addition to the courses required to obtain a master's or doctoral degree. The students will take programs for GIPS in addition to completing the requirements for the master's or doctoral degrees issued by Environmental and Information Studies course at the Graduate School of Environmental and Information Studies. GIPS is one of high quality programs selected by MEXT (Ministry of Education, Culture, Sports, Science and Technology, Japan) for supporting governmental scholarships.

The students with a strong interest in solving global scale issues, motivation to act as future innovators and leadership for collective impact are welcome to apply to GIPS. The program seeks to equip students with ethics, insights, backcasting method, systems thinking, perspective, strategic planning, and management capability in addition to high-level research skills. The program educates both Japanese and international student side by side, making use of maximized synergy among participants from multiple countries and placing high emphasis on specialized research in environmental and information fields.

Upon completion of GIPS, an official certificate of this GIPS in addition to the Master's/Doctoral degree are given.
