

Academic Year 2025

Tokyo City University
**Graduate School of
 Environmental and Information Studies**

Environmental and Information Studies	> Master's Program > Doctoral Program	Yokohama Campus
International Collaborative Program of Transdisciplinary Sciences for Sustainability between Tokyo City University and Edith Cowan University	> Master's Course	Yokohama Campus
Urban Life Studies	> Master's Program > Doctoral Program	Setagaya Campus

Admission Guidelines

Examination types	Special screening for international students
	Round A(May)
Application period	Thursday, May 2 to Monday, May 6, 2024
Screening (examination) dates	Wednesday ,May 15
Notification of result	10:00 a.m., Monday , May 20
Enrollment deadline	Must be postmarked by Friday, June 7

※The schedule for the entrance exam is based on Japan time.

Purposes of human resource development and our educational and research activities

Graduate School of Environmental and Information Studies

Quoted from Article 3, School Regulations of the Graduate School of Tokyo City University—

Purposes of human resource development and our educational and research activities	<p>Graduate School of Environmental and Information Studies</p> <p>Through advanced education related to the environment, information, and urban life, and through the practice of research that responds to social needs, the department aims to nurture human resources who can create new values and a rich society by cultivating analytical ability and insight in the natural, mathematical, and social sciences to accurately identify and solve problems in an increasingly complex world and region, and by conducting multifaceted research in cooperation with diverse stakeholders.</p>
---	---

8 billion total population, \$97 trillion global GDP, 63% global Internet usage, 3.7 billion tons of annual primary energy consumption (oil equivalent), 33.5 billion tons of annual CO2 emissions, 4.5 billion urban dwellers...In 2015, the United Nations took the lead in establishing sustainable development goals. The global goals aim to combat various issues of climate change, water, ecosystem, urban cities and infrastructures. To resolve a broad variety of global issues, human beings need to make excellent use of artificial intelligence, IoT, big data, and other cutting-edge information processing technologies to bring dramatic progress to eco-innovation, such as biomass and renewal energy, and realize smart cities and ecotowns promptly. Although the government, local governments, corporations, NPOs, NGOs, consumer organizations and various organizations are required to promote these efforts, there is a critical deficiency in human resources who can lead these organizations.

The mission of the Graduate School of Environmental and Information Studies is to deepen basic research and applied research related to the environment, information, and urban life, which are new and crucial research domains for the 21st century. Concurrently, it strives to realize sustainable society by implementing research findings in society. The school offers a curriculum that places emphasis on developing the ability to see things from a higher perspective and see through the true nature of problems, as well as the power of executing research backed up by specialized knowledge and skills and communication skills to share the research findings with the international community. The school has 47 personnel who are active in each field of the environment, information, and urban life to provide highly concentrated research guidance, which is close to a one-to-one basis. Students also receive internships and research projects through cooperation with corporations and local governments. The intermediate presentations along with English presentations held regularly along with research presentations at international conferences held overseas will be valuable experiences and assets in the future for students studying in the graduate school.

The graduates of the Graduate School of Environmental and Information Studies work in various research institutions, consulting firms, information industries, and local governments while playing an active part as experts to resolve global environmental and social issues. Their achievements prove the high quality of the curriculums taught in the graduate school. Through the school's curriculum, students will deepen their expertise (warp) to understand a broad range of domains in a cross-sectoral manner (woof). By improving their well-rounded comprehensive skills with proportioned warp and woof, students are expected to develop to become human resources who can contribute to the realization of a sustainable society important for our Earth and its people.

Admission policy

The Graduate School of Tokyo City University aims to develop human resources to bring about sustainable social development, and has established graduate schools corresponding to specialized fields of academic research to achieve this goal. Each graduate school seeks individuals with the following abilities, motivation, and goals based on the "Objectives for Human Resource Development and Education/Research" set forth by each graduate school.

【Master's Program】

In today's society, sustainable social development is required, taking into consideration the three elements of economy, society, and environment. To achieve this, it is necessary to have human resources who can solve various social problems in a cross-sectoral and multidisciplinary manner based on solid professional skills. Therefore, we ask prospective students to be able to share the following items.

1. Empathy with the university's educational philosophy and objectives
2. Multi-faceted and composite perspectives and logical thinking based on these perspectives
3. Strong interest in unknown problems and a challenging spirit to solve them
4. Communication skills necessary for professional competence
5. Ethical values to have as a human being

【Doctoral Program】

In today's society, sustainable social development is required, taking into consideration the three elements of economy, society, and environment. To achieve this, it is necessary to have advanced research skills to solve various problems, and to acquire the ability to explore new issues and new fields of study. For this reason, we seek students who can share the following points.

1. Awareness of the various problems facing modern society and a desire to contribute to the development of society
2. Ability to develop their own capacity to address unresolved issues
3. Ability to solve various problems from a global perspective in cooperation with various stakeholders
4. Execution skills needed to fulfill leadership roles
5. Possess appropriate ethical and behavioral characteristics required for research activities.

Policy of Graduate School of Environmental and Information Studies

Admission Policy

The Graduate School of Tokyo City University aims to develop human resources to bring about sustainable social development and has established graduate schools corresponding to specialized fields of academic research to achieve this goal. Each graduate school seeks individuals with the following abilities, motivation, and goals based on the "Objectives for Human Resource Development and Education/Research" set forth by each graduate school.

Master's Course	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Master's Program is to develop human resources who have critical awareness to find out specific issues in the field of environment, information or urban life and are willing to struggle to solve these issues. For this purpose, we are inviting students who can share with us the following points of view.</p> <p>[Invited Personality]</p> <ol style="list-style-type: none"> 1. Having sympathy with our philosophy of education 2. Critical thinking about modern society 3. International, future oriented and interdisciplinary points of view 4. Practical mind for solving problems 5. Communication ability with others 6. Morality and ethical mind as a scientist
Doctoral Course	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Doctoral Program is to develop human resources who have profound insight and ambition to explore new academic areas in relation to environment, information or urban life from interdisciplinary broad perspective, and advanced research and teaching ability.</p> <p>[Invited Personality]</p> <p>We invite students who have critical mind to the issues and problems on modern human society, research mind to seek practical resolutions to maintain sustainable society, and ambitious mind for exploring brand new academic field.</p>

Curriculum Policy

The Graduate School of Tokyo City University organizes and implements the following curricula to achieve its policies on accreditation and degree conferral.

Master's Course	<p>[Required Subjects]</p> <p>Students should take required subjects in order to complete master thesis under guidance and instruction by teachers of belonging laboratory.</p> <p>[Specialized Studies]</p> <p>Students should take subscribed number of "basic specialized subject" to acquire interdisciplinary broad knowledge, and also should take subscribed number of "specialized subject" in order to understand more specialized knowledge of each study field.</p> <p>[General Common Subjects]</p> <p>Student should take some general common subjects in order to be a human resource with practical capability for success in the international society and are required to make presentations including by English on your research.</p>
Doctoral Course	<p>[Advanced Skills for Professionals]</p> <p>In order to be a professional researcher as well as a teacher and an academic member of the society, students are required to acquire various advanced skills in the circumstance of easily taking advices from any teachers in the graduate school.</p> <p>[Research for Doctoral Dissertation]</p> <p>Students are promoting and making progress of their doctoral research under consultation, guidance or instruction by professor and other teachers of their laboratory. . Presentations of each semester are required.</p>

Diploma Policy

In accordance with the educational philosophy of the University, the Graduate School of Tokyo City University recognizes students who have earned the prescribed credits and acquired the following knowledge and abilities and confers a master's degree in the Master's Program and a doctoral degree in the Doctoral Program.

Master's Course	<p>[Specialized Knowledge and Applicable Skills] Acquired the abilities of profound consideration with specialized knowledge for seeking practical resolutions on specific issues in the field of environment, information or urban life.</p> <p>[Abilities for Analysis and Planning] Acquired the abilities to find practical resolutions through scientific way of thinking, survey, investigation and analysis.</p> <p>[Communication Ability and Sense of Responsibility] Having potentialities for making more progress on research and practices with communication ability and sense of responsibility in order to contribute to international society.</p> <p>[Research Ethics] Having morality and ethical mind as a scientific researcher.</p>
Doctoral Course	<p>[Advanced Capability for Scientific Research] Acquired the advanced and profound research capabilities in terms of to accomplish a specific research project, to integrate a consistent output, to apply to practical resolutions as well as to make contribution by accumulation of wisdom to the society.</p> <p>[Interdisciplinary Perspective] Acquired interdisciplinary broad capabilities in terms of to contribute to create brand new value through finding various issues with bird eye's view and connecting them with advanced knowledge on environment, information or urban life.</p> <p>[Research Ethics] Having morality and ethical mind as a scientific researcher.</p>

Environmental and Information Studies

Admission Policy

Master's Course	<p>[Invited Personality]</p> <p>The Master's Program of Environmental and Information division seeks students with the following skills who are interested in the four fields such as "Environmental Management", "Communication Environment", "Information System", and "Regional/Urban Environment".</p> <ol style="list-style-type: none"> 1. Basic knowledge at the level of graduation with a bachelor's degree that is required of a researcher to undertake studies in the chosen field (However, it is not necessarily required to have taken environmental-and information-related classes.) 2. Language skills to participate in lectures and conduct research on a global scale 3. Specific awareness of environmental- and information-related issues and the skill to explain the issues to others <p>In order to recruit such students, we conduct entrance examinations such as the written test and interview in the general screening (Japanese and English). In the case of the adult screening (2 years or more of work experience is required) and the general screening (English), we consult with the applicants about the language used in their education before preparing the application documents.</p>
Doctoral Course	<p>[Invited Personality]</p> <p>The Doctoral Program of Environmental and Information division seeks students who have strong interest in either environmental field or information field with the following capabilities.</p> <ol style="list-style-type: none"> 1. Specialized knowledge at the level of graduation with a master's degree that is required to research on one of the selected academic fields from "Environmental Management", "Communication Environment", "Information System", and "Regional/Urban Environment". 2. Language skills to participate in lectures and conduct research on a global scale 3. Specific awareness of environmental- and information-related issues and the skill to explain the issues to others. <p>In order to recruit such students, we conduct entrance examinations such as the written test and interview in the general screening (Japanese and English). In the case of the adult screening (2 years or more of work experience is required) and the general screening (English), we consult with the applicants about the language used in their education before preparing the application documents.</p>

Curriculum Policy

Master's Course	<p>[Required Subjects]</p> <p>Students should take required subjects in relation to complete master thesis under guidance and instruction by teachers of belonging laboratory. Throughout these research process, students enhance their required capabilities on scientific way of thinking, survey, investigation, and analysis in terms of solving problems on environmental or information issues.</p> <p>[Specialized Studies]</p> <p>Students should take subscribed number of "Basic Specialized Subject" in order to obtain interdisciplinary broad knowledge, and also take subscribed number of "Specialized Subject" in order to understand more specialized knowledge of each study field.</p> <p>[General Common Subjects]</p> <p>Student should take some General Common Subjects in order to be a human resource who has practical capability for success in the international society and are required to make presentations on your research.</p>
Doctoral Course	<p>[Advanced Research and Teaching Skills]</p> <p>In order to be a professional researcher as well as teacher and academic member of the society, students should acquire various advanced skills in the circumstance of easily taking advice from any teachers in the whole graduate school.</p> <p>[Making Progress on Academic Wisdom]</p> <p>In the academic field of environmental or information studies, students promote and carry out their doctoral research with advanced methodologies of investigation or analysis, integrate these findings, and complete a consistent doctoral dissertation. Throughout this process, each student is expected to be an independent professional researcher who has international and interdisciplinary perspective.</p>

Diploma Policy

Master's Course	<p>[Specialized Knowledge and Applicable Skills] Acquired the abilities of profound consideration with specialized knowledge for seeking practical resolutions on specific issues in the field of environmental or information studies.</p> <p>[Analytical Capacity and Imagination Ability] Acquired the abilities to find practical solutions through scientific way of thinking, survey, investigation, and analysis in terms of modern issues of environmental or information studies.</p> <p>[Communication Ability and Sense of Responsibility] Having potentialities for making more progress in research and practices with excellent communication ability and sense of responsibility in order to contribute for international society.</p> <p>[Research Ethics] Having morality and ethical mind as a scientific researcher.</p>
Doctoral Course	<p>[Advanced Capability for Scientific Research] Acquired the advanced and profound research capability in terms of to accomplish a specific research issue in the academic field of environmental or information studies in order to find practical resolutions and to contribute for accumulation of wisdom.</p> <p>[Interdisciplinary Perspective] Acquired interdisciplinary capabilities in terms of to contribute to create brand new value by finding different issues with bird eye's view and connecting them with advanced knowledge and technologies on environmental or information study fields.</p> <p>[Research Ethics] Having morality and ethical mind as a scientific researcher.</p>

About this department

The Department of International Collaborative Education is a master's degree program based on the International Collaborative Education Program System. International Partner Programs, also called Joint Degree Programs, are single degree programs established between partner institutions in Japan and overseas, and a single degree is jointly awarded under the joint name of both partner institutions to students who have completed a single joint educational program. The overseas partner institution for this major is Edith Cowan University, which is the host university for the Tokyo City University Australia Program (TAP). All classes for this major are conducted in English. Students in this major, whose primary university is Tokyo City University, will spend one semester in Perth, Western Australia, taking courses offered by Edith Cowan University.

Upon completion of the prescribed credits, including 15 credits from courses offered at Tokyo City University and 15 credits from courses offered at Edith Cowan University, and successful completion of the master's thesis and final examination, students will be awarded a joint degree (Master of Environmental Studies) in English from Tokyo City University and Edith Cowan University. The degree is jointly awarded in English by Tokyo City University and Edith Cowan University.

This program is supported by the Ministry of Education, Culture, Sports, Science and Technology's FY2022 Strategic Funds for the Promotion of University Education Revitalization "Project for Strengthening the Global Development Capability of Universities: Support for Formation of Inter-University Exchange with the Indo-Pacific Region, etc." and is eligible for round-trip airfare and accommodation subsidy until FY2026. However, visa application fee (approx. 70,000 yen), insurance fee during overseas stay (approx. 50,000 yen), and local living expenses are to be borne by the applicant.

Translated with DeepL.com (free version)

Students will receive research guidance from both Tokyo City University and Edith Cowan University.

For this major, the university that processes the application for admission shall be designated as the primary university. Students who designate the University as their primary university will pay admission and tuition fees to the University and will not be required to pay separate admission and tuition fees to Edith Cowan University. Please note that there may be associated fees and costs.

The number of students eligible for admission is five students whose primary university is the University and five students whose primary university is Edith Cowan University.

Upon enrollment, students will be registered with both the University and Edith Cowan University.

In addition to meeting the admission requirements set forth by the University, students must also meet the admission requirements set forth by Edith Cowan University. One of these is the English Language requirements (Band 4).

Please refer to the following URL for details.

【English Language requirements(Band 4) URL】

2-year course flow

<https://www.ecu.edu.au/future-students/course-entry/english-proficiency-bands>

(Specific examples of English Language requirements (band 4))

IELTS Academic (including IELTS Academic UKVI) score of 6.5 or above (6.0 or above in each category)

TOEEL iBT or TOEIC iBT Special Home Edition score of 84 or above (17 or above in each category)

IELTS Academic online test scores are not eligible.

Scores of external English proficiency tests taken within 2 years of the date of admission are valid.

In this major, students will have academic standing at both the Graduate School and Edith Cowan University. In other words, in order to complete the program, students must fulfill the requirements for completion of both programs. Students must be enrolled in the Graduate School for at least two years, earn 30 credits (15 credits from courses offered by the University and 15 credits from courses offered by Edith Cowan University), receive necessary research guidance, and pass a master's thesis review and final examination conducted jointly by the two universities. In addition to these requirements, Edith Cowan University requires students to pass designated academic training and other requirements for completion of the program. Details will be provided after admission.

Urban Life Studies

Admission Policy

Master's Course	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Master Program of Urban Life Studies division is to develop human resources who have ability to find out specific issues that deserve to research, who have ability to investigate them with specialized knowledge and analytical knowhow, and who have ability to propose a practical and creative solution that leads to “quality of modern urban life”.</p> <p>[Invited Personality]</p> <ol style="list-style-type: none"> 1. Having interest on urban issues, and willing to contribute to the society through research or projects in terms of creating “quality of modern urban life”. 2. Basic knowledge at the level of graduation with a bachelor's degree, ability of logical thinking, motivation for new discover, inventive ideas or creative works. 3. Japanese language skills to participate in lectures. 4. Having communication ability with Japanese language 5. Having morality and ethical mind as a researcher
Doctoral Course	<p>[Purpose of Education, Research and Human Resource Development]</p> <p>The purpose of the Doctoral Program of Urban Life Studies division is to develop human resources who have profound insight on urban issues, ambition to explore brand new areas in order to create “quality of modern urban life”, interdisciplinary bread perspective, and with advanced capability for research and teaching.</p> <p>[Invited Personality]</p> <ol style="list-style-type: none"> 1. Having interest on urban issues, and willing to contribute to the society through distinguished research or projects in terms of creating “quality of modern urban life”. 2. Knowledge and capabilities for research work at the level of graduation with a master's degree, interdisciplinary perspective, ambition to explore brand new areas of academic field. 3. Language skills to participate in lectures and conduct research on a global scale 4. Having communication ability with Japanese language 5. Having morality and ethical mind as a researcher.

Curriculum Policy

Master's Course	<p>[Required Subjects]</p> <p>Students should take required subjects in relation to complete master thesis under guidance and instruction by teachers of belonging laboratory. Throughout these research process, students enhance their required capabilities on scientific way of thinking, survey, investigation and analysis in terms of solving problems of modern urban society or creating attractive modern urban life.</p> <p>[Specialized Studies]</p> <p>Students should take subscribed number of “Basic Specialized Subjects” in order to obtain interdisciplinary broad knowledge, and also take subscribed number of “Specialized Subjects” which correspond to four major field of urban life studies, i.e., Urban Lifestyle, Urban Design, Urban Social System and Project Management, in order to understand more specialized knowledge of each study field.</p> <p>[General Common Subjects]</p> <p>Student should take some General Common Subjects in order to be a human resource who has practical capability for success in the international society and are required to make presentations on your research.</p>

Qualification Screening

1. Validation of consent to the application and the screening of the qualification for enrollment

*Refer to the "Domains and Instructors" provided on a separate list.

Master's Program

Applicants must consult with an academic supervisor for the course they are applying for prior to the submission of their application and get the permission for application from the academic supervisor by e-mail.

- If the instructor of the domain applied for is an assistant research supervisor (marked with *) in the Domains and Instructors (page 5) in this document, the applicants need to obtain a validation stamp of consent to the application by the staff in the same domain as the application form (Form A) at the time of the application.
- If the instructor of the domain applied for only teaches in Academic Year 2022 (first year in the Master's Program), the applicants need to obtain a validation stamp of consent to the application form (Form A) by the staff who will teach after Academic Year 2023 (after the second year in the Master's Program). Please be sure to consult with the instructor of the domain applied for to make pre-arrangements prior to the submission of the application.

Doctoral Program

Applicants shall consult with an instructor of the domain they are applying for prior to the submission of their application and receive a validation stamp of consent to the application by the instructor on an application form (Form A).

- If the instructor of the domain applied for is an assistant research supervisor (marked with *) in the Domains and Instructors (page 5) in this document, the applicants need to obtain a validation stamp of consent to the application by the staff in the same domain as the application form (Form A) at the time of the application.
- If the instructor of the domain applied for only teaches for one year or two years (third year in the Doctoral Program and up to the fourth year in the Doctoral Program), the applicants need to obtain a validation stamp of consent to the application by the staff who will teach until the final year. Please be sure to consult with the instructor of the domain applying for to make pre-arrangements prior to the submission of the application.
- In addition to the validation stamp by the instructor, it is also necessary to assign the staff in the same domain listed in Domains and Instructors (page 5) in this document as an advisor in advance. The applicants also need to obtain a validation stamp from the advisor. Please consult with your prospective supervisor before applying. (Except for * mark)

Application procedures

1. Application Fee

JPY 35,000 — Please pay the application fee using the application fee payment system.
A service fee (990 yen) must be paid in addition to the application fee when the application fee is paid (The system is not available outside of the application period.).

URL <http://www.guide.52school.com/guidance/pay-tcu-g/>

To pay the application fee, access the following website (<http://www.guide.52school.com/guidance/pay-tcu-g/>). Upon registration, visit your nearest convenience store (7-Eleven, Lawson, Family Mart, Mini stop, daily- yamazaki, and Seicomart) or Pay-Easy (ATMs of Japan Post Bank and banks in Japan with a Pay-Easy sign). You may also pay with a credit card. A service fee (990 yen) must be paid in addition to the application fee when the application fee is paid.

*The application fee cannot be paid via the teller at bank institutions.

*Please note that the application fee, once paid, shall not be refunded under any circumstances.

*If the applicant's family member or acquaintance completes the application procedures on behalf of the applicant, the application documents must include information about the applicant.

2. List of application documents

Applicants must submit the documents marked with ● in the space provided under "Intended for" in the following table. Please be careful because the documents may differ depending on the programs and examination types.

【Special Screening for the overseas partner institutions】

	Intended for		Prescribed Forms	Application Documents	Notes
	Master's Program	Doctoral Program			
1	●	●	Form A	Application Form	Specify the name of the course applying for and get the permission for application from the academic supervisor by e-mail.
	●	●	—	Permission e-mail	Enclose a copy of the e-mail by which the permission for application is got from the academic supervisor.
2	●	●	Form B	Application Fee	JPY 35,000 Please pay the application fee using the application fee payment system, and affix a receipt in the prescribed section on the Form B.
	●	●		Secondary Form (Photograph Ticket)	Affix a photograph taken within three months of submission of the application. The photograph must be taken from the waist up, directly facing the camera, and bareheaded. (width x height = 3 x 4 cm). Affix the photograph in the prescribed section of Form B.
3	●	●	Form C	Statement of purpose and research plan	Please discuss with an instructor of the domain you are applying for before preparation.
4	●	●	—	Transcripts	Applicants for the Master's Program Applicant's transcripts from the last school graduated (or the applicant is currently attending.)
					Applicants for the Doctoral Program Applicant's transcripts from the last graduate school graduated (or the applicant is currently attending.)
5	●	●	—	Graduation Certificate or Certificate of Expected Graduation	Applicants for the Master's Program Submit a graduation certificate (graduation and degree certificate) or a certificate of expected graduation obtained from undergraduate studies of a university.
					Applicants for the Doctoral Program Submit a completion certificate for a graduate school or Master's Program, or a certificate of expected graduation. <small><For international students, refer to "Notes for international students" in the next section.></small>
6	●	●	Form E	Letter of Recommendation	When the applicants wish to apply under Special Screening for the overseas partner Institutions submit the recommendation letter jointly named by <ul style="list-style-type: none"> • The president of the university or graduate school to which the applicant belongs. • The chief professor of the department to which the applicant belongs.
7	●	●	Form H	Applicant Survey Form	※Only international students are required to submit.
8	●	●		passport page	※Only international students are required to submit. Please submit a copy of the page with your name, photo, signature, etc.
9	●	●		Copy of the residence card	※Only international students are required to submit. Foreign students residing in Japan must submit it. Foreign students residing outside Japan do not need to submit this form.

3. List of application documents**Notes for international students**

Application documents: 4	Transcripts
Application documents: 5	Graduation Certificate/Certificate of Expected Graduation

- ▽ Please submit the original or a certified true copy (a copy certified by the school from which the applicant graduated [completed], an embassy, or other public institution that the copy was properly duplicated from the original). For Chinese applicants, please submit it as official documents.
- ▽ Please be sure to submit the documents in the applicants' native language.
- ▽ If the documents are in other languages than Japanese, English, and Chinese, please attach a translated document in Japanese or English. Please receive a certification for the translation at embassy or other public institutions.
- ▽ Please be sure to submit transcripts and a graduation (completion) certificate issued by the final school in the relevant country.
- ▽ Besides a graduation (completion) certificate, submit copies of diplomas if possible.
- ▽ If the name and date of birth shown on a certificate differ from the passport, provide proof that the applicant is the same person at the embassy or other public institutions.
- ▽ The certificates must be issued within three months from the date of the application. However, this shall not apply if there is only one original.

Note 1: Even if the applicants graduated from a university overseas and have part of the original of submission documents, the school will always check the original. In this case, please contact the Academic Support Center prior to the submission of the application.

Note 2: Once submitted, the documents will not be returned, in principle. However, students who wish to request the return of documents may ask beforehand.

Note 3: If you have any questions, please contact the department you are interested in.

Note 4: Those who do not have a status of residence in Japan may delay your entry into Japan because of the necessity to apply for a new visa.

3-1. Common Matters for All International Students and Applicants

1. Please be sure to submit your transcripts and graduation (completion) certificate issued by your last school in your country. If you receive a certificate, be sure to submit the one with the official seal of the school. (If the certificate contains multiple pages, all pages need to have the official seal.)
2. Please submit the original transcript or a certified true copy (a copy certified as a true copy of the original by the school from which you graduated, the embassy, or other public institution) of your transcript and graduation certificate.
3. If the document is written in a language other than Japanese or English, please provide a Japanese or English translation. The translation must be certified by an official organization such as an embassy that it is consistent with the meaning of the original.
4. In addition to the Certificate of Graduation, please submit a copy of the Diploma if possible.
5. If the name, date of birth, etc. on the certificate differs from that on the passport, please obtain proof of identity from the embassy or other public institution.
6. The certificate must be issued within three months prior to the date of application. However, this does not apply if only one original copy is available, so please enclose a note explaining the circumstances.
7. Those who do not have a status of residence in Japan will need to apply for a new visa, which may delay their entry into Japan.
8. Applicants from undergraduate, master's, and doctoral courses at our university do not need to submit transcripts and graduation (completion) certificates for the relevant courses, but they do need to submit transcripts and graduation (completion) certificates for courses they did not study at our university.
9. In principle, foreign applicants must be able to obtain "Student" status of residence at the time of admission.

3-3. For graduates of universities in the People's Republic of China

- Applicants for the Master's Course (Environmental and Information Studies/ Urban Life Studies): Please submit 1 to 4 (for undergraduate courses)
- Applicants for the Master's Course (International Collaborative Program of Transdisciplinary Sciences for Sustainability between Tokyo City University and Edith Cowan University): Please submit 1 to 4 (for undergraduate courses) and 6
- Applicants for the Doctoral Course: Please submit 1 to 6 (for the undergraduate course and the Master's Course)

Master- s & Doctoral	1	Original or certified true copy of the certificate of graduation (completion) Must be issued by the university from which you graduated and have an 18-digit number on it.
	2	Verification Report of China Higher Education Qualification Certificate It must be issued by CHSI (China Higher-education Information and Student Information) and written in English. If you wish to submit the Online Verification Report of China Higher Education Qualification Certificate, please read the following instructions carefully.
		Original or certified true copy of Transcript of Results A document issued by the university from which you graduated. If you have transferred to another institution, please submit the results of the institution from which you transferred.
	4	Verification Report of China Higher Education Student's Academic Transcript It must be issued by CHSI (China Higher Education Student Information Network) and written in English. If you wish to submit the Online Verification Report of China Higher Education Student's Academic Transcript, please read the following instructions carefully.
Doctoral	5	Original or certified true copy of the Certificate of Degree Must be issued by the university from which you completed and contain a 16-digit number.
	6	Credentials Report Issued by CDGDC (China Academic Degrees and Graduate Education Development Center) and written in English. If you wish to submit an Online Credentials Report, please read the following instructions carefully.

Please note that it may take up to 5 weeks to receive the "Verification Report of China Higher Education Qualification Certificate", "Verification Report of China Higher Education Student's Academic Transcript", and "Credentials Report". If the above documents are not submitted within the application period, your application may not be accepted.

■ About the Verification Report of China Higher Education Qualification Certificate and Verification Report of China Higher Education Student's Academic Transcript

It is handled by CHSI (<https://www.chsi.com.cn/en/pvr>) .

In Japan, you can apply for issuance at the CHSI Japan Representative Office (<http://www.chsi.jp>) .

If you wish to submit the certificate in electronic format, please arrange for it to be sent directly from CHESICC (China Higher Education Student Information and Career Center) to our university's Academic Support Center (sckyoumu@tcu.ac.jp) via e-mail within the application period. E-mails forwarded by applicants will not be accepted as application documents. Please note that applications received after the application period may not be accepted. Please check the details of the procedure by yourself.

■ About the Credentials Report

It is handled by CDGDC (<https://www.chinadegrees.cn/cqva/gateway.html>) .

If you wish to submit the certificate in electronic format, please arrange for it to be sent directly from CDGDC(China Academic Degrees and Graduate Education Development Center) to our university's Academic Support Center (yckyoumu@tcu.ac.jp) via e-mail within the application period. E-mails forwarded by applicants will not be accepted as application documents. Please note that applications received after the application period may not be accepted. Please check the details of the procedure by yourself

	Urban Life Studies		Setagaya Campus

Note 1: Please note that examination centers vary by courses.

Note 2: Please check the examination ticket and information display posted on the day of the examination to find information about a waiting room for applicants and assembly time.

Note 3: Although the submission of medical examination reports is not required at the time of the submission of the application, please contact the Academic Support Center prior to the submission if special consideration is required for taking the examination or schooling due to physical disabilities.

※The schedule for the entrance exam is based on Japan time.

Notification of result and Enrollment Procedure, etc.

1. Notification of result and Enrollment Procedure, etc.

Schedule name	Round A
Notification of result	10:00 a.m. Monday, May 20
Enrollment deadline	Friday, June 7

The identification numbers of successful applicants will be posted on the Yokohama Campus and the Todoroki Campus. The acceptance letter and enrollment procedure documents will be sent to successful applicants by express mail.

※The schedule for the entrance exam is based on Japan time.

2. Enrollment procedures

- (1) To enroll in the graduate school, successful applicants will must submit enrollment procedure documents and pay enrollment fees before the prescribed deadline.
- (2) The deadlines for enrollment procedure are shown in the table above. However, because of unavoidable circumstances, the payment deadline of enrollment fees except for the entrance fee shall be extended up to Friday, March 7, 2025.
- (3) The submission of enrollment procedure documents and the payment of enrollment fees must be completed by mail and wire transfer. For details, please refer to the guidelines for enrollment procedure to graduate school, which is included with the letter of acceptance.
- (4) Please note that the tuition, once paid, shall not be refunded. However, the payment amount except for the entrance fee may be refunded after completion of the enrollment procedures. (Refer to “(7) The declination of enrollment” provided below.
- (5) About payment amount

Reference: The amount paid by the students admitted to the Graduate School of Environmental and Information Studies in Academic Year 2025

(Unit: JPY)

Category Payment amount	Total payment amount for enrollment procedure	For students wishing to pay in installment	
		At the time of enrollment procedure	Before October 20
Entrance fee	240,000	240,000	—
Tuition	970,000	485,000	485,000
Total	1,210,000	725,000	485,000

(a) Students who wish to pay their tuition in installments may pay at the time of the enrollment procedure and by October 20 of the following year. In addition, the tuition for the second year will be announced separately at the beginning of the relevant academic year.

- (6) Special financial support is provided for privately financed international students (those who have or expect to obtain "College Student" status of residence).30% tuition reduction or exemption may be available. If you wish to apply for a tuition reduction, please follow the prescribed procedures at the time of admission.

If you wish to apply for a tuition fee reduction, please follow the prescribed procedures at the time of enrollment. The tuition fee reduction for the first year will be granted after the decision on the reduction has been made after enrollment.

After the reduction deliberation is finalized, the first year's tuition fee will be reduced or exempted. Even if you wish to apply for a tuition fee reduction, please follow the enrollment procedures for the above-mentioned amount of installment payment.

- (7) Reduces the economic burden on privately funded foreign students who meet certain conditions after graduating from an overseas partner university And, there are cases that tuition fee reduction and exemption measures are implemented for the purpose of developing excellent human resources. If you wish to apply for a reduction or exemption, please go through the prescribed procedure at the entrance procedure. In addition, the reduction and exemption measures for the first year will be carried out after the reduction and exemption deliberation is settled after enrollment. Even if you wish to apply for a reduction or exemption, please apply for admission at the amount of the above installment payment.
- (8) If you wish to withdraw from enrollment for unavoidable reasons after completing the enrollment procedures and notify the school of your withdrawal by 17:00 on Monday, March 31, 2025, all payments except for the entrance fee will be returned. For details, please refer to the "Guidelines for Graduate School Admission Procedures" enclosed with the notification of acceptance. For details, please refer to the "Guidelines for Graduate School Admission Procedures" enclosed with the notification of acceptance.

3. Handling of personal information of applicants

Personal information, including address and name, collected through procedure documents will be used by the university to contact, send handouts, and for statistical purposes. The university will not use personal information outside of these operations. The university also places strict controls on personal information.

Notification of result and Enrollment Procedure, etc

4. Courses after enrollment

Master's Program

(Environmental and Information Studies Urban Life Studies)

To complete the Master's Program of the Graduate School of Environmental and Information Studies, students are required study for a minimum of two years in the graduate school and acquire 30 credits. In addition, they must pass the screening for the doctoral thesis and exam provided by the graduate school after receiving the necessary research guidance. The breakdown of the number of required credits (30 credits) is shown on the right. Additionally, the Literature Research/Exercise, and Special Research are taught outside the class hours under the guidance of research supervisors.

Literature Research/ Exercise	4 credits
Special Research	6 credits
Subtotal	10 credits
Class subjects	20 credits or more
Total	30 credits or more

(International Collaborative Program of Transdisciplinary Sciences for Sustainability between Tokyo City University and Edith Cowan University)

Pursuant to the provisions of the Graduate School Regulations of Tokyo City University, a person who has been enrolled in a doctoral course of graduate school for a prescribed period, has acquired 30 credits or more to meet the completion requirements specified by each main university, has received the necessary research guidance, etc. (including passing the academic training conducted by Edith Cowan University), has submitted a dissertation or research report on specific subjects, has passed the examination and final examination, and is awarded a doctoral course.

As shown in the table below, students attending Tokyo City University must complete at least 15 credits, including 3 credits from "Literature Research and Exercise I-IV" "Special Studies I and II", and at least 15 credits, including at least 30 credits in total.

Doctoral Program

To complete the Doctoral Program of the Graduate School of Environmental and Information Studies, students are required study for a minimum of three years in the graduate school and pass the screening for the master's thesis and exam provided by the graduate school after receiving the necessary research guidance. The breakdown of the number of required credits (24 credits) from compulsory subjects (research guidance) is shown on the right.

Lecture and Investigation	8 credits
Research	16 credits
Total	24 credits

Notification of result and Enrollment Procedure, etc.

5. Scholarship programs

- The examination fee for all applicants who will graduate from Tokyo City University (those who are expected to graduate or complete in September 2021) is exempted from the entrance fee.
- For students in the Doctoral Program and Master's Program, the school offers scholarship programs that exempts students from paying tuition for students who demonstrate excellent academics and personalities (see (1) below). For the screening of these scholarship students, only students advanced internally and those who are specially recommended from four universities of science and technology in Tokyo are eligible for the screening. There are also grant-type scholarship programs from (2) to (3) shown in the tables below.
- A representative example of a scholarship loan is the scholarship by the Japan Student Services Organization, which are two types including the interest-free loan (Type One Scholarship) and the interest-bearing loan (Type Two Scholarship.) In addition, there is a program for students using the Type One Scholarship who especially demonstrate excellent academics, which exempts them from repaying their student loans (see (4) below).

(1) Scholarship for graduate school student (unique to TCU)

Program	School year	Amount of reduction and exemption	Remarks
Doctoral Program	D5	Total amount of tuition or half amount of tuition	Only for students advanced internally and those who are specially recommended from four universities of science and technology in Tokyo.
	D4		
	D3		
Master's Program	M2		
	M1		

(2) The reduction and exemption of tuition for students who enrolled in the screening for working adults (unique to TCU)

Program	School year	Amount of reduction and exemption	Remarks
Doctoral Program	D5	90% of tuition	Only for students who enrolled in the screening for working adults and wish to receive the reduction and exemption of tuition.
	D4		
	D3		
Master's Program	M2	50% of tuition	
	M1		

(3) Tuition Reduction and Exemption for Privately Financed International Students (Unique to TCU)

Eligibility	Amount of reduction and exemption	Remarks
Those who meet all of the following requirements (a) Have graduated from an overseas university with which the university has an exchange agreement. (b) Those who have a final GPA of 3.0 or higher at the partner university. (c) Those who are enrolled in the graduate school of the university.	75% of tuition	The university's Tuition Reduction and Exemption Committee for Privately Financed International Students selects the students and the president decides.
Those who meet all of the following requirements (a) Have graduated from an overseas university with which the university has an exchange agreement.
